

UHF RFID tag for water bottle

Material: Coated paper/synthetic paper/PET/PVC

Product Size: 70 x 20 mm

Inside Diameter of Paper Core: 76 mm

Package: 1000-3000 pcs /Roll, 1-5 Rolls/Carton

Operating temperature: -40 to +80°C

QA: 100% inspection, bad label has been replaced

Application: Smart retail, water bottle.

Chip: MR6-P

Frequency: 860-960 mhz

Protocol: ISO 18000-6C

EPC: 96/128 bits

User: 32/64 bits

TID: 96 bits

Operating model: Passive

IC life: write endurance of 100,000 cycles, data retention of 10 years

Operating Distance: 50-60 cm

Personalization: Full-color printing, QR code printing, barcode printing, encoding, ect.
